Software Engineering Student |

Third-year Software Engineering student at Harare Institute of Technology with practical experience in full-stack web and mobile application development. Experienced in building database-driven applications using React.js, JavaScript, Node.js, Express.js, MongoDB and REST APIs. Through academic and personal projects, I have developed experience in frontend and backend development, database design, authentication, API integration, software testing and debugging. I am passionate about developing practical technology solutions, continuously expanding my technical skills and applying software engineering principles to real-world problems.

SKILLS

Technical skills

- **Programming and Software Development:** JavaScript, Java, C#, Kotlin, Object Oriented Programming, Software Testing, Debugging, Requirements Analysis, Data Structures and Algorithms.
- **Web and Application Development:** React.js, HTML5, CSS3, Node.js, REST APIs, Mobile Application Development, Responsive Web Development.
- **Databases:** MongoDB, MySQL, Mongoose, SQL.
- **Tools:** Git, GitHub, VS code, Microsoft Office, Windows.
- **Networking:** Router and Switch configuration, Wireless access points, Network troubleshooting

EDUCATION

Bachelor of Technology (Honours) in Software Engineering,

Harare Institute of Technology

[Harare, Zimbabwe]
AUG 2024- Expected 2028

Relevant Coursework

Software engineering fundamentals, Data Structures and algorithms, Database systems, Web Technologies, Mobile application development, Software Project Management, Requirements Engineering, Operating Systems

PROJECTS

1. ZimCraft Hub Online Marketplace

Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, REST APIs, Git

- Developed a full stack web and mobile marketplace connecting Zimbabwean artisans with local and international buyers.
- Built responsive frontend interfaces using **React.js** and integrated them with backend services through **REST APIs**.
- Developed backend functionality using **Node.js** and **Express.js**, including product management, authentication and system functionality.
- Designed database models and persistent data management using MongoDB and Mongoose
- Implemented user authentication and role-based access control for different system users.
- Integrated external services and APIs for functionality including payments and image management.
- Debugged application issues and tested system features during development.
- Used Git and GitHub for version control and project collaboration.

GitHub: <https://github.com/thabani29/Zimcrafts-Hub>

2. Pulse SEO Engine

Technologies: React, Node.js, JavaScript, HTML

- Developed an interactive SEO analysis platform for evaluating website metadata and on-page SEO elements.
- Implemented website auditing and metadata analysis functionality.
- Generated SEO recommendations based on analysed website data.
- Developed responsive interfaces for presenting SEO scores and performance metrics.
- Implemented analysis features covering metadata, links, security and website performance.

PROFESSIONAL EXPERIENCE

Network Administrator/ IT Support *Thumeya*

[Bulawayo, Zimbabwe]

DEC 2025 – FEB 2026

- Assisted with network administration and troubleshooting.
- Diagnosed and resolved basic connectivity and technical issues.
- Supported users with hardware, software and network related problems.
- Assisted with maintaining reliable network and IT infrastructure.
- Performed routine technical checks and troubleshooting to identify and resolve issues.
- Worked independently on technical tasks while collaborating when issues required additional support.

Dear Sir / Madam

Re: **INDUSTRIAL INTERNSHIP: HARARE INSTITUTE OF TECHNOLOGY:**
SOFTWARE ENGINEERING DEPARTMENT.

The Harare Institute of Technology offers a four-year Bachelor of Technology Honors Degree in Software Engineering. For at least eight months of that period the student must be on Industrial Internship to gain hands on experience and familiarization with the real world. The Industrial Attachment is a mandatory requirement for the partial fulfillment of the degree programme.

It is against this background that the Software Engineering Department is requesting your assistance in securing attachment in your organization for **Nyathi Thabani Reg no H240101M**. Ideally, the internship period is from July 2026 to June 2027.

For further information do not hesitate to contact the undersigned at wmakondo@hit.ac.zw or the School Administrator at sharuzivishe@hit.ac.zw.

Your assistance is greatly appreciated by the Institute.

Thank you.

A handwritten signature in black ink, appearing to be 'W. Makondo', written over a horizontal line.

W. MAKONDO (Eng)
Chairperson, Software Engineering
